

Year-2017

1. B.Narayana Swamy, Y.Suresh Babu, Dr.K.Thirupati Reddy, Mechanical Properties of HDPE polymer composites, Int Journal of Engineering Science and computing, Jan 2017.
2. Y.Suresh Babu , B.Narayana Swamy, , Dr.K.Thirupati Reddy, Mechanical Properties of HDPE polymer composites, Int Journal of Engineering Science and computing, Jan 2017.
3. Dr.K.Thirupati Reddy , B.Narayana Swamy, Y.Suresh Babu, , Mechanical Properties of HDPE polymer composites, Int Journal of Engineering Science and computing, Jan 2017.
4. T.John Babu,M.Khaja Gulam Hussain A study of mechanical properties of HDPE reinforced with lime stonecomposite material, Int Journal of Scientific development and research, vol 2, issue1, jan 2017.
5. M.Khaja Gulam Hussain , T.John Babu, A study of mechanical properties of HDPE reinforced with lime stonecomposite material, Int Journal of Scientific development and research, vol 2, issue1, jan 2017.
6. B. Sidda reddy, j. Suresh kumar, k. Vijaya kumar reddy, & m. Ashok kumar, effect of speed on tensile strength and hardness of friction welded joint, volume 04 issue 08, july 2017pp.1561-1565. (UGC approved).
7. venkatesh ganta, srinivasasagar k, chakradhar d. "multi objective optimization of thermally enhanced machining parameters of inconel 718 using grey relational analysis" international journal of machining and machinability of materials" vol. 19, nov. 1, 2017. H-inxex: 15, (Scopus)
8. Venkatesh G, D.Chakradhar, influence of thermally assisted machining parameters on the machinability of inconel 718 superalloy. Silicon, November 2017, volume 9, issue 6, pp 867–877. Doi 10.1007/s12633-017-9568-3, impact factor: 0.5. (SCI)
9. Sidda reddy, j. Suresh kumar, k. Vijaya kumar reddy, & m. Ashok kumar, effect of slagoncoconutsheathreinforcedcomposite, <https://edupediapublications.org/journals/index.php/ijr/> pp. 2822-2826, e-issn: 2348-6848 ,p-issn: 2348-795x volume 04 issue 14 november 2017. (UGC approved)
10. P.sagar, m.ashok kumar, b.sidda reddy, development & comparison of polymer hybrid composites reinforced with glass, sisal, & jute fibers, volume 04 issue 14, november 2017.pp.2769-2792.
11. P.sagar, m.ashok kumar, b.sidda reddy, development & comparison of polymer hybrid composites reinforced with glass, sisal, & jute fibers, volume 04 issue 14, november 2017.pp.2769-2792.
12. B.sidda reddy , h. Sumithra , published a paper titled as a review on tribological behaviour of natural reinforced composites in journal of reinforced plastic and composites published on 22 december 2017 , impcact factor 1.086.
13. B. Sidda Reddy, J. Suresh Kumar, K. Vijaya Kumar Reddy, & M. Ashok Kumar, Effect of speed on tensile strength and hardness of friction welded joint, Volume 04 Issue 08, July 2017Pp.1561-1565. (UGC approved).
14. Venkatesh Ganta, Srinivasasagar K, Chakradhar D. "Multi objective optimization of thermally enhanced machining parameters of Inconel 718 using grey relational analysis" International Journal of Machining and Machinability of Materials" Vol. 19, Nov. 1, 2017. H-inxex: 15, (SCOPUS)
15. Venkatesh G, D.Chakradhar, Influence of thermally assisted machining parameters on the machinability of Inconel 718 superalloy. Silicon, November 2017, Volume 9, Issue 6, pp 867–877. DOI 10.1007/s12633-017-9568-3, Impact factor: 0.5. (SCI)
16. B. Sidda Reddy, J. Suresh Kumar, K. Vijaya Kumar Reddy, & M. Ashok Kumar, Effect of SlagonCoconutSheathReinforcedComposite, <https://edupediapublications.org/journals/index.php/IJR/> pp. 2822-2826, e-ISSN: 2348-6848 ,p-ISSN: 2348-795X Volume 04 Issue 14 November 2017. (UGC approved)

17. P.SAGAR, M.ASHOK KUMAR, B.SIDDA REDDY, Development & Comparison of Polymer Hybrid Composites Reinforced with Glass, Sisal, & Jute Fibers, Volume 04 Issue 14, November 2017.pp.2769-2792.
18. P.SAGAR, M.ASHOK KUMAR, B.SIDDA REDDY, Development & Comparison of Polymer Hybrid Composites Reinforced with Glass, Sisal, & Jute Fibers, Volume 04 Issue 14, November 2017.pp.2769-2792.
19. B.Sidda Reddy , H. Sumithra , published a paper titled as A review on tribological behaviour of natural reinforced composites in journal of reinforced plastic and composites published on 22 december 2017 , impact factor 1.086
